UserEase

Manage Your Salesforce Users' Onboarding, Offboarding, and Everything in Between in **50% Less Time.**

The Challenge

Managing your Salesforce users and their access permissions is complicated because it demands you to browse multiple screens, execute too many 'Clicks' and manage access permissions individually. Identifying inactive accounts and offboarding users one-by-one is challenging and time consuming.

UserEase - The Solution

UserEase puts an end to the long and cumbersome process of Salesforce User Management by automating the process. With a one-of-a-kind UI and exclusive features, it facilitates 50% faster onboarding, offboarding, and access management of Salesforce users. UserEase brings you the convenience of hassle-free user management with automation at the forefront.

UserEase provides optimal solution to organizations with

- ✓ 500+ Salesforce users
- ✓ Frequent onboarding and offboarding of users
- ✓ Salesforce users dispersed across various departments
- ✓ Dynamic & Large Sales/Service Teams

Benefits to Your Business

Save up to 50% Time

Save half of your time on user and access management activities with quicker navigation and fewer clicks administration.

Licenses & Cost Optimization

Seamlessly identify and deactivate inactive accounts to minimize unnecessary license costs.

Compliance-Focused User Onboarding

Avoid compliance risks and penalties by mitigating errors in creating and managing user records and access permissions

How UserEase is Different

✓ Pre-defined Access Management Templates

- Set up access permissions for specific business units or departments, and create a template out of it
- Use these templates during user onboarding to eliminate the need for individual configuration.
- Choose the relevant business unit when adding a new user, and the system will automatically assign necessary access permissions.

✓ Joint Offboarding of Multiple Users

- Accelerate the user offboarding process for enhanced organizational data security.
- Efficiently deactivate multiple users with just a few clicks, saving time compared to single user offboarding.

✓ One-Stop Access Management:

- Centralized access management in a minimalist user interface.
- Handle permissions for multiple users effortlessly from one convenient location, eliminating the need to navigate through multiple screens.

✓ Lightning Ready Solution

- Aligned with the Lightning experience for ongoing relevance and efficiency.
- A reliable choice for efficient user lifecycle management in the evolving Salesforce environment.
