Data Import Control Tower

Expand NetSuite's CSV Import Capabilities with Common Transactions Not Currently Supported by NetSuite

Business Challenge

NetSuite ERP does not support importing many commonly utilized records and transactions through its standard CSV import wizard. This gap often results in manual entry, which can be very time-consuming. Building a customization can be expensive and not a scalable solution for the clients.

The Solution

Jade has built the **"Data Importing Control Tower,"** which enables the import of the following using a common CSV Wizard process.

- Project Tasks
- Billing Schedules
- Item Receipts
- Item Fulfillments
- Amortization
- Work Order Issues
- Work Order Completion with Backflush
- Customer Deposits
- Purchase Requisitions
- Purchase Requests
- Currencies
- Subsidiaries

Business Benefits to Business

- Streamlines data entry of common records and transactions not currently supported by NetSuite.
- Offers a seamless user experience with a flow similar to NetSuite's CSV Import Wizard.
- Bundled with Jade's ERP Implementation Services for a comprehensive solution.
- Extendable by our clients to accommodate unique custom fields.
- Scales efficiently for large data volumes.
- Reduces the need for manual data entry, saving time and resources.

How is the solution different?

Reduces the data migration timeline drastically

Jade Data Import Control Tower accelerator leverages automated tools and preconfigured templates to speed up the data entry process by incorporating unsupported Records and Transactions.

Customization and Flexibility

Jade's accelerator can be enhanced to support additional fields as required.

Expert Support

It is backed by an experienced team of NetSuite experts with years of experience

About Jade Global

Jade Global is a long-standing NetSuite partner and a Three-time Spotlight Partner Award Winner, delivering ERP Transformation projects, NetSuite Analytics Warehouse implementation projects, optimization services, and managed services.

Our NetSuite-certified experts have built the NetSuite Data Import Control Tower, leveraging 20+ years of industry experience and a team of 600+ ERP Consultants. We have delivered 1000+ ERP Transformation Projects and built 20+ Solutions and Accelerators.

With Jade Data Import Control Tower, you can optimize your operations by seamlessly importing records or transactions that NetSuite doesn't support natively.
